

# ***How to Change the World- Part One***

*Romans 10:18*

**Introduction:** In the first century, the entire world changed... forever! Jesus Christ and His disciples reached the entire world with the gospel. How did they accomplish such a feat? Without the aid of our modern technology, one man and His small group did this in one generation! They did not convert everyone, but everyone was aware of the call of God to repentance.

**Conclusion:** As the saying goes, “the journey of a 1000 miles begins with one step.” Salesmen will be the first to tell you that, if you do not know your product you will not be successful. We are told to remove the planks from our own eyes before we try to remove the speck from an others. Before we can evangelize the lost we must get ourselves right.
